HARSHITHA L. S.

Objective:

Detail-oriented and enthusiastic Junior Full Stack Developer with experience in developing and maintaining web applications using Java and JavaScript frameworks. Seeking to leverage my skills in a dynamic and collaborative environment to contribute to the success of innovative projects.

Technical Skills:

- JAVA
- React JS
- HTML
- CSS
- JavaScript
- Angular
- J2EE
- SQL
- MySQL

Work Experience:

Junior Java Full Stack Developer

Appbay Technologies, Jaipur | May 2023 – May 2024

- Acquired hands-on experience in Java full stack development, encompassing both front-end and back-end aspects of web application development.
- Developed user interfaces using HTML, CSS, and JavaScript while implementing server-side logic and database interactions with Java frameworks such as Spring, SpringBoot and Hibernate.
- Contributed to the creation of robust and scalable web applications by leveraging the full stack development approach for seamless integration across all layers of the software.
- Could adapt to new technologies that were complex and challenging.

Technical Support Engineer

Glow Touch Technologies, Mangaluru | March 2021 – April 2023

- Diagnosed and resolved technical issues, such as website downtime, server error.
- Analyzed and troubleshooted customer-reported problems to identify root causes and implement solutions.
- Assisted customers with website hosting-related inquiries, including domain management, server configuration, and email setup.
- Collaborated with development teams to escalate and communicate technical issues, fostering effective cross-departmental communication and collaboration.

Projects:

TuneHub Music Application | January 2024 – February 2024

- TuneHub is a full stack web application.
- The admin user can add songs and create playlist while customer can explore songs.
- The users need to register and login to access functionalities.
- Technology used: Spring Boot, Spring Data JPA, Html, CSS , MySQL Driver.

Online Bank Application | October 2023 – December 2023

- Developed a responsive and user-friendly interface for account management, including balance inquiries, transaction, change password, apply loan, change name.
- Implemented secure user authentication requiring login using account numbers and passwords, providing a safeguard for customer account.
- Technology Used: Java EE, Servlets, JSPs, HTML, CSS, Jdbc, Oracle DBMS.

Certifications:

- Certification in data structures workshop by ABC for technology training.
- Certification in Java full stack development by KodNest.
